November, 1941, pp. 397–491
December, 1941, pp. 493–592

Acetylcholine and prostigmine, On the effects of, in normal man..... 529
Arbesman, Carl (see Winkenwerder, Walter L.)..... 287

Barker, W. Halsey, Harold J. Stein, Mitchell H. Miller, and Maxwell M. Wintrobe: Failure of pyridoxine (vitamin B_6) to modify the Parkinsonian syndrome.... 266
Billings, F. T., Jr., and W. Barry Wood, Jr.: Studies on sulfadiazine. III. The use of sulfadiazine in the treatment of pneumococcal pneumonia..... 314
Blackman, Sam S., Willard E. Goodwin, and Mary V. Buell: On the relation between the concentration of total protein and of globulin in the urine and the pathogenesis of certain renal lesions in Bright's disease..... 397
Bliss, Eleanor A., and Perrin H. Long: Observations on the mode of action of sulfanilamide. The antibacteriostatic action of methionine..... 14
Bliss, Eleanor A. (see Long, Perrin H.)..... 297
Blood pressure, arterial, The accuracy of clinical measurements of..... 504
Bodian, David (see Howe, Howard A.).....86, 92, 149, 183
Bodian, David, and Howard A. Howe: The pathology of early arrested and non-paralytic poliomyelitis..... 135
Bodian, David, and Howard A. Howe: The rate of progression of poliomyelitis virus in nerves..... 79
Bordley, James, III (see Ragan, Charles)..... 504
Book Reviews.....72, 222, 295, 388, 486, 582
Bright's disease, On the relation between the concentration of total protein and of globulin in the urine and the pathogenesis of certain renal lesions in..... 397
Buell, Mary V. (see Blackman, Sam S.)..... 397
Burns, A new treatment for..... 217

Corwin, Warren C.: Studies on the chronic toxicity of sulfaguanidine (sulfanilylguanidine)..... 39
Creatinuria induced by methyl testosterone treatment of dwarfed boys and girls.... 493

Dosage-effect curve, On a graphic solution of the..... 276

Eagle, Harry (see Winkenwerder, Walter L.)..... 287
Electroencephalographic changes associated with different forms of experimentally produced increased intracranial pressure..... 240

Evans, E. A., Jr.: Pyruvate oxidation and the citric acid cycle..... 225

Fertig, J. W. (see Litchfield, J. T., Jr.)..... 276
Fleischman, Walter (see Wilkins, Lawson)..... 493

Gay, Leslie N. (see Keeney, Edmund L.)..... 482
Gay, Leslie N. (see Winkenwerder, Walter L.)..... 287
Goodwin, Willard E. (see Blackman, Sam S.)..... 397

Hanlon, C. Rollins (see Price, Philip B.)..... 327
Harvey, A. M., and R. L. Masland: The electromyogram in myasthenia gravis.... 1
Harvey, A. M., J. L. Lilienthal, Jr., and S. A. Talbot: On the effects of the intra-arterial injection of acetylcholine and prostigmine in normal man..... 529
Harvey, A. M., J. L. Lilienthal, Jr., and S. A. Talbot: Observations on the nature of myasthenia gravis. The phenomena of facilitation and depression of neuromuscular transmission..... 547
Harvey, A. M., and J. L. Lilienthal, Jr.: Observations on the nature of myasthenia gravis. The intra-arterial injection of acetylcholine, prostigmine, and adrenaline..... 566
Hay-fever, A comparison of ball-mill and Coca extracts of ragweed pollen in the treatment of..... 287
Holt, L. Emmett, Jr. (see Najjar, Victor A.)..... 469
Howard, John E. (see Wilkins, Lawson)..... 493
Howe, Howard A. (see Bodian, David)..... 79, 135
Howe, Howard A., and David Bodian: The effect of spinal transection on the spread of poliomyelitis virus in the nervous system of the rhesus monkey..... 86
Howe, Howard A., and David Bodian: Refractoriness of nerve cells to poliomyelitis virus after interruption of their axones..... 92
Howe, Howard A., and David Bodian: Poliomyelitis in the chimpanzee. A clinical-pathological study..... 149
Howe, Howard A., and David Bodian: Neuropathological evidence on the portal of entry problem in human poliomyelitis..... 183

Johns Hopkins Medical Society, Proceedings of a meeting of the..... 578

Keeney, Edmund L., Stewart Sunday, Leslie N. Gay, and Kenneth Lynch: Poison ivy dermatitis..... 482

Lilienthal, J. L., Jr. (see Harvey, A. M.)..... 529, 547, 566
Litchfield, J. T., Jr., and J. W. Fertig: On a graphic solution of the dosage-effect curve..... 276
Long, Perrin H., Eleanor A. Bliss, and Earl Ott: Studies on sulfadiazine. I. The chemotherapy of experimental haemolytic streptococcal, pneumococcal and staphylococcal infections in mice..... 297
Long, Perrin H. (see Bliss, Eleanor A.)..... 14
Long, Perrin H. (see Trevett, Gordon I.)..... 303
Longmire, William P. (see Price, Philip B.)..... 327
Lynch, Kenneth (see Keeney, Edmund L.)..... 482

Masland, R. L. (see Harvey, A. M.) 1
Metcalf, William (see Price, Philip B.) 327
Miller, Mitchell H. (see Barker, W. Halsey) 266
Myasthenia gravis complicated by thyrotoxicosis: Creatine studies 469
Myasthenia gravis, Observations on the nature of. The phenomena of facilitation and depression of neuromuscular transmission 547
Myasthenia gravis, Observations on the nature of. The intra-arterial injection of acetylcholine, prostigmine, and adrenaline 566
Myasthenia gravis, The electromyogram in 1

Najjar, Victor A., and L. Emmett Holt, Jr.: A riboflavin excretion test as a measure of riboflavin deficiency in man 469
Nelson, Russell A. (see Trevett, Gordon I.) 303

Ott, Earl (see Long, Perrin H.) 297

Pickrell, Kenneth L.: A new treatment for burns 217
Poison ivy dermatitis 482
Poliomyelitis in the chimpanzee. A clinical-pathological study 149
Poliomyelitis, Neuropathological evidence on the portal of entry problem in human .. 183
Poliomyelitis, The pathology of early arrested and non-paralytic 135
Poliomyelitis virus, Refractoriness of nerve cells to, after interruption of their axones . 92
Poliomyelitis virus, The effect of spinal transection on the spread of, in the nervous system of the rhesus monkey 86
Poliomyelitis virus, The rate of progression of, in nerves 79
Price, Philip B., C. Rollins Hanlon, William P. Longmire, and William Metcalf: Experimental Shock. I. Effects of acute hemorrhage in healthy dogs 327
Pyridoxine (vitamin B_6), Failure of, to modify the Parkinsonian syndrome 266
Pyruvate oxidation and the citric acid cycle 225

Ragan, Charles, and James Bordley, III: The accuracy of clinical measurements of arterial blood pressure 504
Reeves, David L.: Congenital absence of the septum pellucidum. A case diagnosed encephalographically and associated with congenital amaurosis 61
Reynolds, Frank W.: The fate of *treponema pallidum* inoculated subcutaneously into immune rabbits 53
Riboflavin deficiency, A riboflavin excretion test as a measure of, in man 469

Septum pellucidum, Congenital absence of the. A case diagnosed encephalographically and associated with congenital amaurosis 61
Shock, experimental. I. Effects of acute hemorrhage in healthy dogs 327
Stein, Harold J. (see Barker, W. Halsey) 266
Stewart, Walter A.: Electroencephalographic changes associated with different forms of experimentally produced increased intracranial pressure 240
Sulfadiazine, Studies on. I. The chemotherapy of experimental haemolytic streptococcal, pneumococcal and staphylococcal infections in mice 297
Sulfadiazine, Studies on. II. The clinical use of sulfadiazine in the therapy of bacterial infections, other than pneumonia 303

Sulfadiazine, Studies on. III. The use of sulfadiazine in the treatment of pneumococcal pneumonia 314
Sulfaguanidine (sulfanilylguanidine), Studies on the chronic toxicity of 39
Sulfanilamide, Observations on the mode of action of. The antibacteriostatic action of methionine 14
Sunday, Stewart (see Keeney, Edmund L.) 482
